

Usually you cannot transfer an expired domain from another Registrar to us, as the current Registrar will not support this. However, you should check with the current Registrar to verify that you can or cannot transfer the domain.

You can transfer an expired Tucows OpenSRS domain.

Transfer to us from another Tucows OpenSRS Reseller

You can transfer your domain to us from another Tucows OpenSRS Reseller, which can generally be accomplished in **under 30 minutes**. Even if their website states that expired domains cannot be transferred, they will be able to transfer your domain because they are within the same Registrar system (Tucows OpenSRS) as us.
